Name: Ben Jacobs

	Task1 (what is it): Select a product	Task2 (what is it): Select a listing
Tester (name):	Ryan Hanselman	Ryan Hanselman
Observations (both the tester's observations and your observations as designers):	The listings pulled up. More user options at this point could help with guidance.	The listing page should pull up but has yet to be implemented.

What would you change about your design based on the observations?
I would create a list of recommended locations.
